01 Introduction

We believe the most important thing in education is to transmit ideas. Teachers shall not waste time tossing hardware or looking for USB disks. With Bytello Class solution, we can make it possible!

> Seamless Sharing in Different Ways, connect resources you' re using

- * Screen sharing, easily connect PC and interactive panel without client.
- * File sharing, fast and stable display of your resources between devices.
- * Cloud Drive, directly open your files in Google Drive, Onedrive and Bytello.
- * Support to import PPT, PDF, screenshots, images and media from.

> Instantly engage your students

- * Whiteboard tools, help capture students' attention.
- * Subject tools, help spark students' ideas.
- * Activities, help inspire students' learning.

> All you need in one platform

- * Interactive slides, add teaching materials, digital media, and interactive elements to the lesson.
- * Practice games, turn your materials into a practice game.
- * Classes, import your class roster to make classroom games more exciting.

> Collaborate safely and quickly, Data Protection

* Collaborate with other educators by sharing lesson plans and resources through the cloud. All content is encrypted by default for security.

* Servers are deployed in multiple countries to support different schools' requests for data storage locations.

> Bytello team provides more dedicated assistance

- * Tutorial video, for user training
- * WhatsApp Group, communicate and discuss

Key features:

	Modu	le	Description		
	Account	QR Code	Log in by scanning the QR code with your mobile device.		
		Google/Microsoft	Log in via Google or Microsoft account.		
		Screen Share from PC	Share the screen with a web link on your PC. Remember the device, and connect with ease. (Only Windows now)		
		File Share from PC	Quick share your resources from PC to IFP. Stable and High-definition display. (Only Windows now)		
	Files	Upload from mobile	Collect more ideas by uploading photos from mobile to IFP. (Only Windows now)		
		Sync from Bytello	Sync interactive e-lessons and cloud resources through Bytello Account.		
		Open from USB / Storage	Present interactive e-lessons and resources on the Interactive panel: Enbx, PPT, PDF, PNG format. (Only Windows now)		
	Annotate	Mark	Allows annotations regardless of what is being displayed on the screen.		
Teach on	Whiteboard	Select & Pen	Write freely on the interactive panel.		
IFP		General Tools	Provide Shape, Board, Timing.		
		Subject Tools	Provide Geometry, Ruler, Line, Planet, Painting, Piano, Periodic table, Function.		
	Interactive	Rank	Create several groups and organize competitions and record scores for each group.		
		Group	Randomly generate student groups of any size, all with one tap.		
		Games	Turn your materials into a class game that gets the whole class excited and participating.		
		Polls	Collect Students' ideas with student devices. (Only Android & Web now)		
		QR Code	Easy send to students via QR code.		
	Share	Upload	Easy save the content to the cloud. (Only Windows now)		
		Export	Export to PPT, PDF, PNG format.		

More features:

	Modul	e	Description	
		Text	Provide input of Text in e-lessons.	
	Basic	Shape	Provide input of Shape in e-lessons.	
	element	Media	Support Google Drive and Onedrive access.	
		Animation	Provide input of animations in e-lessons.	
		Online Source	Add YouTube videos by pasting URL, add online pictures by entering a keyword.	
	Advanced element	Table	Provide input of Table in e-lessons.	
		Mindmap	Provide input of Mindmap in e-lessons.	
	Subject element	Math	Various subject tools: Formula, Geometry, Number Line, Function.	
		Language	Line: Insert the line, enter writing English letters.	
Prepare on PC		Chemistry	Insert the entire periodic table or individual elements.	
	Games	Practice	Various activity templates such as: Fun Classify, Super Classify, Matching Pairs, Gap Filling, etc.	
		Import	Support to import PPT or PDF files in the form of pictures into slides.	
	Files	Auto-Sync	Create and sync interactive e-lessons anytime, anywhere.	
		Share to Email	Easily send the Slides to email.	
		Share Link	Easily share slides with students via a link.	
	Classes	Students manage	Import your class roster to make classroom games more exciting.	
		Devices manage	Manage your classroom devices.	
	Devices	Cast screen & Files	Share the screen and files between devices.	

02 Whiteboard App

We provide users with two versions of Bytello Class, Android and Windows. On the interactive flat panel (IFP) you can choose to use according to your preference.

1-Install App

1.1. Windows version:

1.1.1、Turn on IFP, click the Menu icon and select PC, you can use Windows system now.

1.1.2、The first way: Open a browser on IFP, input the link <u>https://www.bytello.com/class</u>, click the Download button. After the Download is complete, double-click the file to install. When the installation is complete, you can quickly start an engaging lesson on IFP with Bytello Class.

1.1.3 The second way: You can also enter on your PC and download the App https://www.bytello.com/class. Save it to the USB and then copy it to IFP for installation. Let's experience Bytello Class.

1.2. Android version:

1.2.1 Enter the URL https://www.bytello.com/class , contact the Bytello team via WhatsApp or Email to get the Android installation package.
(It needs to match your interactive panel devices and Android version)

1.2.2 Enter the Android system on IFP, install the app to start the class.

2-Presentation

2.1、Connect device:

2.1.1、Open Bytello Class on the IFP, it will pop up a 6 digit code, if it

doesn't appear, click on the cast icon in the lower left corner.

2.1.2、Open the URL <u>https://class.bytello.com</u> on PC and you can easily log in to Bytello with your Google/Microsoft account.

2.1.3 After login Bytello, enter the 6-digit code displayed on the IFP. If the device you connect is new, you need to enter a new 4-digit code for verification for safety.

2.1.4. You can name the device for better identification for next time.

2.1.5 Now you have successfully connected devices.

① You can choose to share the screen from the PC to IFP, or you can choose to send files to IFP from local storage or cloud disk.

② If you want to stop sharing, click the Disconnect button to finish.

						0

2.2、Screen Share:

2.2.1 Before screen share:

① Make sure your PC and IFP are connected to the same network.

② If you use a Macbook, make sure to enable screen recording permissions on your PC. Open System Preferences, click on Security & Privacy, and click on Screen Recording Options to make sure the browser you are using has permission to record the screen.

2.3、File Share:

2.3.1 Now you have successfully connected devices. You can choose to send files to IFP from local storage or cloud disk.

2.3.2、Click the upload button in the lower left corner to upload image through the mobile devices.

2.4、Cloud Drive:

2.4.1、Open the URL <u>https://class.bytello.com</u> on PC and you can

create interactive slides or practice games on Bytello Class.

2.4.2、Click the file button in the lower left corner, and it would directly sync the slides after login.

2.4.3、At the same time, the Googledrive and Onedrive you bound to Bytello Account will be auto sync.

<	Files		 <
O Tris Cas		Dear USD Here	Uşkəsi Activityes

2.5、USB or Storage:

Bytello Class also supports offline operation. Click the file button in the lower left corner, select the USB or This Device to directly open the resources for teaching.
